Experience the Difference of Optrel

Welcome to Optrel, millions of welding professionals all over the world trust in eye protection from Optrel, this is due to high regard for safety, comfort and efficiency during the welding process. With a welding mask from Optrel you get a maximum in comfort and optimum protection at the same time.

High Tech Swiss Made

Optrel is the leading innovators of eye protection in several fields of application. As a leader in technology Optrel have developed numerous innovations like the ADF with true color view, welding helmets with light state shade level 2.5 and the first autopilot for welders.

Discover how Optrel is making its users work as easy and comfortable as possible.

Vegaview Welding Helmet

Working for any period of time in extreme environments requires the highest level of concentration, accuracy, and productivity possible by a welder. Optrel's new Vegaview 2.5 offers the clearest view possible in light state with shade level 2.5, improving the visibility of welders' environment by 400%! Compared with traditional auto darkening welding helmets, Vegaview 2.5 offers the world's clearest view in the light state!

Neo P550 Welding Helmet

NEO P550

\$349⁺gst
(\$401.35 incl. gst)

The Optrel Neo P550 combines the advantages of the proven p550 helmet shell with the newest ADF technology from Optrel. Experience true color vision in a mid-price helmet. With a new efficient energy concept that keeps it action-ready for 3,000 hours. And a reaction time of only 0.1 ms after striking a welding arc. Perfect protection and comfort for your eyes!

Liteflip Welding Helmet

The fully automated welding mask... The Liteflip welding helmet automatically darkens as soon as the welding arc ignites. No manual shade level setting necessary. The Optrel liteflip autopilot automatically adjusts to lighting changes. Super lightweight flip-up welding helmet with automatic shade level adjustment makes welding much more comfortable and easy.

e684 Welding Helmet

Precision is the mission of every welder with every weld. The ability to clearly view the weld and the environment is essential to striking the perfect arc. Taking Optrel's auto darkening filter technology to the next level, the e684 is the only welding helmet that fully automates protection through its Adaptive Shade Autopilot, automatically adjusting the shade level as one welds, in full high-definition viewing. This new level of clarity not only keeps welders better protected, it enables them to perform their job more efficiently, with greater accuracy and precision every time. When it comes to precision welding, do not settle for anything less.

PANORAMAXX

\$799⁺gst
(\$918.85 incl. gst)

Panoramaxx Welding Helmet

So wide. So light. So true color. You've never seen welding like this before. The Panoramaxx offers an unprecedented visual environment for the welder. A nose cut-out in the auto-darkening filter (ADF) brings the lens closer to the eyes, enlarging the field of view 6 times compared to a standard ADF.

Together with a world record light state of 2.5, Optrel's true colour view, and the autopilot feature fully automatic shade level adjustments while you weld. The Optrel Panoramaxx provides maximum viewing comfort, never seen before in an auto-darkening helmet.

Weldcap Welding Helmet

**Perfect for
worksites and
tight spaces**

Welding has never been so comfortable. The new Optrel weldcap combines the lightweight wear comfort of a baseball cap with the full protection of an auto darkening welding helmet. Weldcap is soft where it needs to be comfortable, rigid where it needs to be tough - combined with an extensive field of view that expands a welder's line of sight by 2.7 times.

WELCOME TO THE COMFORT ZONE! CLEARMAXX – THINGS ARE CLEAR

clearmaxx

Clear view. Clear air

WORK WITH YOUR OWN CLIMATE COMFORT ZONE

Unlimited clear view of your work - space, filtered and clear air with adjustable air distribution make the clearmaxx the unique face and respiratory protection system with the highest safety level.

MULTI FUNCTION SYSTEM

Combining it with the optrel e3000 PAPR system with mountain breeze filter the clearmaxx becomes the perfect buddy on countless types of work. The easy-to-change DIN5 front cover lens expands the system to the perfect protector for efficient plasma cutting.

WEARING COMFORT

Thanks to a minimized weight of only 330 g (PAPR version: 495 g) and an ergonomic fit the clearmaxx sets new benchmarks in wearing comfort.

ALWAYS A GREAT VIEW
AND PERFECT AIR
CONDITIONS WHEN
PROTECTING YOUR
FACE IS NECESSARY

KEEP A CLEAR OVERVIEW
